National Wear Red Day – February 3rd

Did you know...

- Heart disease is still the No. 1 killer of women, causing 1 in 3 deaths each year?
- Heart disease claims the lives of more than 422,000 American women each year?

The American Heart Association's **Go Red For Women**[®] movement works every day to fund research and fight this killer so more women can be saved. But they need our help. Please celebrate **National Wear Red Day**[®] on Friday, February 3, to raise awareness about heart disease among women.

How we at the Camden County Health Services Center can **Make It Our Mission to fight heart disease among women:**

- Wear red on February 3rd
 - Love our hearts by being physically active, eating a heart-healthy diet and being educated about heart disease and its risk factors
-
